Mr. W. P. Metz
Sr. Environmental Engineer
ARCO Oil & Gas Company
P.O. Box 360
Anchorage, Alaska 99510

Dear Mr. Metz:

With the material supplied in the package received on October 17, 1979 for the Prudhoe Bay Unit - Increment II we have the information necessary to complete the processing of the Prevention of Significant Deterioration (PSD) permit application to construct the additional facilities at the Prudhoe Bay Oil Field in Alaska. The effective date of the complete application is October 17, 1979.

The Clean Air Act requires that once a complete application is received EPA must issue the final determination within one year. However, we are making every effort to complete the process in as timely a manner as possible.

If you have any questions, please do not hesitate to contact Raymond Nye of my staff at (206) 442-7176.

Sincerely,

Michael M. Johnston, Chief
New Source Permits Section
